PROFESSIONAL EXPERIENCE

Java Intern

INCEDO — GURUGRAM

June 2025 – Present

- Contributing to the design and development of scalable backend systems using Java and Spring Boot.
- Implementing RESTful APIs and WebSocket-based real-time communication .
- Collaborating with cross-functional teams to integrate APIs and optimize backend performance.
- Participating in code reviews, debugging, and unit testing to ensure reliability and quality of deliverables.
- Actively using Postman to test, validate, and troubleshoot REST API endpoints.
- Working with database integration using Spring Data JPA, ensuring efficient data retrieval and persistence.
- Following layered backend architecture (Controller, Service, Repository) to ensure clean code structure, maintainability, and separation of concerns.
- Writing efficient database queries.

PROJECT

1. Employee Record System (CRUD Application)

- Developed a CRUD-based Employee Management System using Java, Spring Boot, and MySQL to manage employee records efficiently.
- Designed and implemented RESTful APIs for creating, reading, updating, and deleting employee data. Utilized Postman to test and verify API endpoints, ensuring accurate data flow between client and server.
- Applied Spring Data JPA for database interaction and Spring Boot for rapid application development and dependency management.

2. Login & Signup System with Forgot Password (Spring Boot Project)

- Developed a user authentication system using Java and Spring Boot that allows users to sign up, log in, and reset passwords securely.Implemented authentication and authorization using Spring Security with encrypted password storage.
 - Built the “Forgot Password” feature to reset user credentials via email verification.
 - Designed and tested all endpoints with Postman to ensure reliable communication between client and server.
 - Integrated MySQL for persistent user data storage and managed application configuration with Spring Boot dependency management.
-

EDUCATION

COLLEGE NAME: B.S ANAGPURIA INSTITUTE OF TECHNOLOGY AND MANAGEMANT 2020-2024

- COURSE : B TECH COMPUTER SCIENCE AND ENGENEERING
- CGPA : 8.10

SCHOOL NAME : SWEET ANGEL SR SEC SCHOOL 2016-2020

- 10TH GRADE : 71%
- 12TH GRAGE : 81%

SKILLS

- SpringBoot
- Rest Api
- Hibernate
- Postman
- Java
- MySQL
- Debugging

CERTIFIATIONS

- Master Data Analytics In SQL and Excel
 - Career Essentials in Generative AI
 - SpringBoot Foundations
 - Great Learning
 - Microsoft and LinkdIn
 - Coursera
-
